## Weldmac XTI 160 MMA/TIG INVERTER

*Industrial Quality...*

Heavy Duty Stick  
Welding Lead Set  
Included

The **Weldmac XTI 160** is a portable, single phase, industrial quality welding machine featuring the latest inverter technology. Capable of welding with up to 4mm electrodes at high duty cycles. **Weldmac XTI 160** provides outstanding arc stability for stick welding with most electrode types. High open circuit voltage ensures excellent electrode starting in all conditions. Suitable for DC TIG welding steel and stainless steel. **Weldmac XTI 160** is the professional's choice when weld quality and powerful consistent performance is essential.

### SPECIFICATIONS

Input voltage	230 v 50Hz
Output	5 - 160 Amps
Duty Cycle (MMA)	160 Amps @ 35%
OCV	58 volts
Weight	5.8 kg
Size L x W x H	320 x 130 x 230

- Heavy duty design
- High Duty Cycle
- Run up to 4mm electrodes
- Excellent Electrode starting
- Generator compatible
- No ugly VRD
